IN NEW ENGLAND

Looms Oevr Carriers Unless Help Is Given.

The railroad situation in New England is "a national problem," for the carriers there "are facing bankruptcy," Howard Elliott, of the New road, declared, this afternoon before the Interstate Commerce Commission hearing evidence on the application of the New England carriers for readjustment of division freight rates. New England carriers must face a debt of \$526,000,000 during the next three years, Elliott said. "I can only view the future with gloom unless relief is given," Elliott testified. "New England is a veritable storehouse of the nation's wealth and the remote problem of national defense must be considered. R.R.'SSEEKU.S.AID Plight of the Farmer Is Our Vital Problem ARE BEING PAID UP

CHICAGO, Dec. 18 .- The vital problem confronting the country to day is the plight of the American farmer. Falling prices, high wages, Counsel Declares Bankruptcy and tightening of the bankers' purse strings have caught the farmer in a vise-like condition, and as yet no relief has appeared. Not that plenty of relief measures haven't been discussed. A great cry has gone up from the money changers, cries that vary in shrillness in proportion to the size of the bank; educational campaigns have been started by the well-meaning, hard-working, statistical lobbyists, hoping to inculcate into the farmer's mind the basic law of proportional values; legislators and editors galore have added their efforts to help the farmer. York, New Haven and Hartford rail- But the farmer is waiting for a more substantial help than printer's ink and aspirational speeches.

Trade Relations With Russia.

The restoration of trade relations with Russia is not wholly a dream, nor is it such an horrible nightmare as our staid economists have warned various parts of the country to meet us it will prove eventually. Outside of forty or fifty Soviet heads, many millions of Russian people would welcome it, would hail the announcement with joy and greet the reality with tears of gratitude.

The thing is not impossible. Stranger transfigurations than this have occurred in a fortnight and less. Albeit, the American farmer knows add another \$100,000,000 to that something about the world's needs, the world's history, and if on the morrow it were announced that Russia stood ready to feed her starving millions with American grain, the farmer would be richly compensated for ficials said it would be nearly a week his breadth of vision and his apparent stubbornness in refusing to sell his wheat and corn now stored away waiting for the lucky turn of the wheel of fortune.

Then there are other things we may dilate, subjective matter that will stand considerable dilation without danger of breaking. Financing of American export trade on a scale, the figures mentioned running from \$500,000,000 up to \$1,000,000,000 I would say that this plan seems to be the most feasible one yet proposed. Under provision of the admirable Edge law, a foreign trade financing corporation is being organized by the American Bankers' Association, and this corporation will be represented by many banks throughout the coun-

Many unofficial reports from different sections of the country which have estimated defalcations in tax payments have been to a great extent exaggerated, in the opinion of Treasury officials. Returns so far do not indicate any heavy shortage, it was stated, and as an instance officials declared that in New York tax receipts already were within \$10,000,000 of the amount estimated for that dis-

FIFTY DAYS OF GRACE ARE FIXED ON TAXES

Persons who were unable to pay their income taxes due on Wednesday would have fifty days of grace under a resolution agreed upon yesterday by the Ways and Means Committee It provides that penalties imposed for nonpayment on that date would not be applied until February 3. The measure was introduced by Congressman Edmonds, Republican, Pennsylvania, who proposed sixty days of grace. The committee decided that fifty days should be sufficient time in which per-
